

New Space Creator

ABOUT US:

Samekom (Foshan) Door Cooperation is a private enterprise which is professional of manufacturing and processing eco-door series products. Samekom's headquarter is in Nanhai District, Foshan City. Samekom is a leading Chinese interior door manufacture with complete and scientific quality management system. With the creative design and deep understanding of modern trends, we treat every customer sincerely and enthusiastically and pay attention to every details. In order to build an elegant and comfortable living environment to our customers, we design simple fashion and reasonable structure series of products with modern home decoration concept. Our mission is to create the most valuable eco-door brand in China. We promise to give you brand, taste and quality as Samekom is new space creator.

Samekom is relying on resources advantage of Foshan which is the Chinese Aluminum capital. We put quality on the first position and dare to break through production and technology bottleneck. Combined eastern and western modeling design, we use the advanced high-tech production facility, fining production process and skilled experts to be the solid guarantee of product quality. Samekom eco-door has the features of anti-scratch, anti-moth, moisture-proof, anti-cracking, environmental conservation, no deformation, easy assemble& disassemble, DIY available, etc. The products are widely used at home, in the office, recreational area and public area interior decoration.

Samekom is committed to creating a leading eco-door brand, leading the popular trends and pushing the development of "Pure Green Living" and establishment of ecological society. Samekom provides you a solution of "Green Living Home".

细节特写:

► AESTHETICS IN THE CONCIENESS

- Simple forms do not reduce the richness of space, the appearance of the building is clean and transparent, internal scale is delightful, the reasonable spatial layout, design of small world. Do not emphasize the jumping posture of building itself, but with a humble attitude to face the environment, and harmonious coexistence with the nature. Fresh design should be lightweight design, human design. On, there is the point, no design, this is the highest state of the design.

简洁中的美学

- 形式的简单并不降低空间的丰富性，建筑外观干净通透，内部尺度宜人，空间布局合理，设计小有天地，不强调建筑本身的跳跃姿态，而以一种谦逊的态度面对环境，与自然和谐共存，清新的设计应该是轻盈的设计，人性的设计，或者，更直接点，无设计，这便是设计的最高境界。
